

Machine Quilting at Basketcases

The Machines

We purchased a Gammill Classic Quilting Machine in 2002. It is in our upstairs work room. In December of 2009 we purchased another Gammill Optimum Machine with a Statler Stitcher for the downstairs workroom. The two machines give us the option to offer our customers many choices in machine quilting.

The Gammill machines are manufactured in West Plains, Missouri and our service center is in Beloit, Wisconsin. Our quilters have completed training classes at the service center and we continually keep in contact with them for new updates and ideas.

We have 100% cotton in natural and white, 50/50 cotton and poly, 100% polyester, 100% wool, bamboo blend, and a soy blend. The widths of the batting range from 90-124".
